

# GLOBAL LAUNCH ONE QUESTION SURVEY FOR GLOBAL IMPACT

Join us in-person at Fotografiska in Stockholm or online to launch the IDG survey aiming to reach 2+ million people in 70+ languages to iterate and by October 2024 update the Inner Development Goals Framework.

The Inner Development Goals is a non for profit and open-source initiative promoting the inner development needed for humanity to accelerate towards the Sustainable Development Goals.

While the IDG framework has already received strong resonance from around the world, the **One Question Global Survey** opens up the co-creation to more voices in a well-structured, inclusive and truly global dialogue.

Join us on the Global Launch Day together with supporters such as **Christiana Figueres**, former Executive Secretary UNFCCC, **Kjersti Fløgstad**, Executive Director of the Nobel Peace Centre, **Rodney Irwin**, COO of the World Business Council for Sustainable Development, **Maja Göpel**, transformation researcher and political economist, and our IDG partners from around the world!

**Fotografiska, Stockholm  
& Worldwide Online**

**September 19**  
10:30-12:00 CET
